Multi-Sourcing

Global Supplier Integrations

Integrate Supplier APIs Directly into your system. Choose from over 100 Certified Supplier APIs with your own Direct Deals

Own Direct Contracting

Upload and Manage Direct Hotel Inventories within System as Hotel Info, Allocation, Room Categories, Rates, Promotions and much more

DMC and Group Inventories

Give Direct and Secured Login Access to DMCs, Property Users, Group Chains for managing their respective property Rates and Allocations

Efficient Offline Bookings

Handle Offline Bookings within system itself as per customer requests for any type of property with option of full details required for a booking

Multi-Distribution

Agents Login

Distribute secured logins to B2B Agents for Online Bookings from your system and establish a Global Customer Base

Staff Logins

Give access to your staff users to process bookings “On-Behalf” of your B2B customers, Direct Customers, Manage Operations, Accounts and MIS

API-OUT

Distribute and Sell Efficiently your Hotel Inventories over API-OUT Channel. Establish a seamless connection with your Agent’s B2B system for Online Bookings and Cancellations.

Mobile Apps

Give access to your B2B customers to Download and use Mobile App for Bookings, Cancellations, Requests, Amendments, Payments etc. on the Move
